### Journal of Trauma and Acute Care Surgery

Acute Care Surgery is a developing field of surgery that has taken the principals of trauma care (organized teams, evidence-based processes and procedures, and continuous quality improvement) and applied them to patients with other urgent, time-sensitive surgical conditions. Thus, our Acute Care Surgery team provides the full range of care to patients who are critically ill with acute surgical emergencies, shock, severe sepsis, respiratory failure, and advanced multi-organ failure, in ...

### Acute Care Surgery (Trauma, Critical Care and Emergency)

Acute Care Surgery (ACS) is an evolving specialty with three essential components- trauma, critical care and emergency surgery. Following a survey of the surgical critical care program directors and of the major trauma organizations it was clear that trauma and critical care surgeons were increasingly responsible for emergency surgical care.
