MindTap for Canadian Business and the Law is a personalized teaching experience with engaging assignments that help students connect concepts to the real world. Critical thinking is encouraged through analysis, application, and reflection.

This third collection of outstanding contributions from the Critical Management Studies (CMS) Division of the Academy of Management (AOM) continues to challenge business practice in ways not tackled by other more typical business case studies. There is a critical need for business educators to expose students and managers to the multifaceted phenomena of doing business in the twenty-first century; to support critical, reflective moral development; and to reflect and understand the complexities of organizational life. Is the system broken? Is there need for more systemic change? The cases explore a number of critical issues at some of the largest industries and companies in the world, including wealth creation and human rights in mining, the CSR approaches at Coca-Cola, the palm oil industry, and the supply chain at Apple Inc. Online Teaching Notes to accompany each chapter are available on request with the purchase of the book.
