Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book. Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book.

In Indian context.

For achieving sustained industrial development, regional growth, and employment generation have always depended on entrepreneurial development. Start-up India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Start-ups in the country that will drive sustainable economic growth and generate large scale employment opportunities. Young Indians today have the conviction to venture out on their own and a conducive ecosystem lets them watch their ideas come to life. The Government through this initiative aims to empower Start-ups to grow through innovation and design. The Government of India has taken various measures to improve the ease of doing business and is also building an exciting and enabling environment for these Start-ups, with the launch of the "Start-up India" movement. In today's environment we have more Start-ups and entrepreneurs than ever before, and the movement is at the cusp of a revolution. However, many Start-ups do not reach their full potential due to limited guidance and access. This book would be useful for upcoming entrepreneurs, as it gives insight into identifying opportunities, creating and starting venture, financing and managing the venture.

### Management Process and Organisational Behaviour

Entrepreneurship is the most important instrument of social and economic development. It is because of this reason it is remarked that developing countries are not underdeveloped but undermanaged. It is true of Japan. About a century ago Japan was considered as an underdeveloped country. Thanks to the rapid progress made by Management science, now Japan is regarded as one of the most advanced countries of the world. Increasing production and productivity is the need of the hour. These are dependent upon physical factors or natural resources of a country and its human resource. However, the resources capable of enlargement can only be human resource. All other resources stand under the laws of mechanics. They can be better utilised or worse utilised but they can never have an output greater than the sum of the inputs. Man alone of all the resources available to man, can grow and develop if properly directed and motivated. In line with this thinking, there has been a revolutionary change in management philosophy. He (man) is potentially creative, trustworthy and co-operative. He is also considered to possess the potential for growth, achievement and constructive action with others. It is the job of the management to nurture and tap employee ' s productive drives. Entrepreneurship, therefore, hold the key to the economic development of a nation. It is because of this reason the U.G.C. ' s Unified Syllabus has included the study of business management subject in almost every course in business and management disciplines, be it B. Com., M. Com., B.B.A. or M.B.A., C.A.C.S., C.W.A. and so on. The author has tried to explain the subject in the most simple language. Extensive use of charts, pictures and diagrams has been made to explain and illustrate the difficult concepts and Fundamentals of Entrepreneurship. Important questions asked in the examinations conducted by various universities and professional institutes have been given at the end of each chapter. The authors sincerely believe that the book will be of immense use and help the students preparing for these examinations.
