Leading futurist Bob Johansen shows how a new way of thinking, enhanced by new technologies, will help leaders break free of limiting labels and see new gradients of possibility in a chaotic world. The future will get even

more perplexing over the next decade, and we are not ready. The dilemma is that we're restricted by rigid categorical thinking that freezes people and organizations in neatly defined boxes that often are inaccurate or obsolete. Categories lead us toward certainty but away from

clarity, and categorical thinking moves us away from understanding the bigger picture. Sticking with this old way of thinking and seeing isn't just foolish, it's dangerous. Full-spectrum thinking is the ability to seek patterns and clarity outside, across, beyond, or maybe even without any boxes or
