Published in 1904 *The Food of the Gods* is a forgotten H.G. Wells classic; it is sci-fi and dystopia at its best written by the creator and master of the genre. Following extensive research in the field of ?growthOCO, Mr Besington and Professor Redwood light upon a new mysterious element, a food that causes greatly accelerated development. Initially christening their discovery ?The Food of the GodsOCO, the two scientists are overwhelmed by the possible ramifications of their creation. With Aunt Jane refusing to give house room to their experiments, Mr Besington is forced to take his laboratory out into the wide world, and chooses a farm at Hickleybrow in Kent that offers him the chance to test his new substance on chickens, which duly grow monstrous, six or seven times their usual size. With the farmer, Mr Skinner, failing to contain the spread of the Food, chaos soon reigns as reports come in of the local populationOCO encounter with monstrous wasps, earwigs and rats. When the chickens escape, they leave carnage in their wake. Keen not to be outdone, the Skinners and Redwoods have both been feeding their children the compound illicitly ? their eventual offspring will constitute a new age of giants. Public opinion rapidly turns against the scientists and society as a whole rebels against the worldOCO new flora and fauna. Daily life has changed shockingly and now politicians are involved, trying to stamp out the Food of the Gods and the giant race. Comic and at times surprisingly touching and tragic, WellsOCO story is a cautionary tale warning against the rampant advances of science but also of the dangers of greed and political infighting and shameless vote-seeking."

delicious meals of human flesh for a dynasty of ghouls in Kuala Lumpur; by night, he ' s an administrator for the Ten Chinese Hells. It ' s a living, of sorts. When the Dragon of the South demands that Rupert investigate the murders of his daughter and her mortal husband, Rupert is caught in a war between gods that ' s as bewildering as it is bloody. If he ' s going to survive, he ' ll need to stay sharp, stay lucky, and always read the fine print... This volume collects the novellas Rupert Wong, Cannibal Chef and Rupert Wong and the Ends of the Earth.

Two scientists devise a compound that produces enormous plants, animals -- and humans! The chilling results are disastrous.

What do we think about when we think about Greek food? For many, it is the meze and the traditional plates of a Greek island taverna at the height of summer. In *Gifts of the Gods*, Andrew and Rachel Dalby take us into and beyond the taverna in our minds to offer us a unique and comprehensive history of the foods of Greece. Greek food is brimming with thousands of years of history, lore, and culture. The country has one of the most varied landscapes of Europe, where steep mountains, low-lying plains, rocky islands, and crystal-blue seas jostle one another and produce food and wine of immense quality and distinctive taste. The book discusses how the land was settled, what was grown in different regions, and how certain fruits, herbs, and vegetables became a part of local cuisines. Moving through history—from classical to modern—the book explores the country ' s regional food identities as well as the export of Greek food to communities all over the world. The book

culminates with a look at one of the most distinctive features of Greece's food tradition—the country's world renowned hospitality. Illustrated throughout and featuring traditional recipes that blend historical and modern flavors, Gifts of the Gods is a mouth-watering account of a rich and ancient cuisine.

Traces the history of chocolate, explains how chocolate is made, and shares recipes that feature it

The story of incense is one of the most intriguing in both eastern and western culture. From the first millennium BC to the present day it has been sought after and valued on a par with precious metals or gems. Although incense was a luxury, it was consumed in prodigious quantities by the ancient world, in temples and at funerals, but also in private homes. The papers in this volume look at the role of incense, primarily - though not exclusively - during the Roman period. It is hoped that they will provide a starting point for further research into this important, but neglected, area of social and economic archaeology.

The Food of Gods is Jasmuheen's 18th book on metaphysical matters and her third book in the Divine Nutrition series. It is not necessary to have read the previous books on this subject which cover her personal journey and the solution for world health and world hunger issues as "The Foods of Gods" takes the pranic nourishment discussion to another level and offers simple yet powerful tools to satiate all of our hungers. Jasmuheen writes: The most important difference with our focus with Divine Nutrition is that It has the ability to feed us
