Sheriff Lance Beaufort is not going to let trouble into his town, no sir. Tucked away in the California mountains, Mad Creek has secrets to keep, like the fact that half the town consists of 'quickened'-dogs who have gained the ability to become human. Descended on both sides from border collies, Lance is as alert a guardian as they come. Tim Weston is looking for a safe haven. After learning that his boss patented all of Tim's work on vegetable hybrids in his own name, Tim quit his old job. A client offers him use of her cabin in Mad Creek, and Tim sees a chance for a new start. But the shy gardener has a way of fumbling and sounding like a liar around strangers, particularly gorgeous alpha men like Sheriff Beaufort. Lance's hackles are definitely raised by the lanky young stranger. He's concerned about marijuana growers moving into Mad Creek, and he's not satisfied with the boy's story. Lance decides a bit of undercover work is called for. When Tim hits a beautiful black collie with his car and adopts the dog, its love at first sight for both Tim and Lance's inner dog. Pretending to be a pet is about to get Sheriff Beaufort in very hot water.

Noah Baker never wanted to betray The Others. But if his military commanders want him to covertly investigate a Lupine scientist—whose extraordinary research on sensory perception in werewolves could be used to develop werewolf-sharp senses in human soldiers—Noah must oblige. Even if it means deceiving the woman he desires the most. Samantha Carstairs is the personal assistant to the Alpha of the Silverback Clan, and as best friend to the Lupine community's most brilliant scientist, she is privy to its most dangerous secret. Noah knows that Sam will never leak the scientific research...so he must find another way to get it, while keeping Sam close. But someone else is after Sam's secret. Who is the other spy infiltrating The Others? If their genetic secrets get into the wrong hands, all hell could break loose. Now Noah's true loyalty is put to the test as he fights to protect The Others—and his beloved Sam—and find the imposter...before it's too late.

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry ' s most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music ' s heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company ' s president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In Howling at the Moon, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing Thriller (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones ' s name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of “ Sexual Healing ” —share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff ' s clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, Howling at the Moon is a blistering You ' ll Never Eat Lunch in this Town Again of the music industry.

Little Wolf can hardly wait. Tonight he will howl at the moon to the top of the sky. First Big Wolf demonstrates traditional howling form, then it's Little Wolf's turn. He's sure he is ready, but when the big moment comes, something unexpected happens. A wonderful story about the importance of doing things your own way and being true to your heart when it swells with wildness and joy.

“ A swift-paced, fun romp. ” – Charlaine Harris, New York Times bestselling author Romance is about to get a little hairy. Sophie Garou seems to have it all: a great job at a prestigious accounting firm, a closet that rivals a Nordstrom showroom, and a terrific boyfriend who isn't afraid to use the “ M ” word. There's just one little itty-bitty problem: Sophie is a werewolf – and her time of month has a whole new meaning. Needless to say, life among yummy flesh-and-blood humans is no piece of steak . . . er, cake!, but regular doses of wolfsbane tea and a mother who runs a magic shop have helped Sophie keep her paranormal pedigree under wraps. Still, when a sexy, golden-eyed werewolf prowls into town, Sophie finds herself struggling to keep her animal impulses in check – not to mention trying to keep things on track with her super hot (and super human) lawyer boyfriend. What's more, someone is threatening to expose Sophie for what she really is. And when her mother is accused of selling a poison-laced potion, Sophie must sniff out a culprit before the fur hits the fan. **DON'T MISS THE NEXT BOOK IN THIS HAIR-RAISING TRILOGY: ON THE PROWL** From the Paperback edition.

Why are foxes red? How did giraffes get such long necks? And why do hares have such big ears? In this book series, children can discover fun and imaginative answers that explain just how animals are the way they are.

"The concept behind 'Howl Of The Wolf' is absolutely fascinating. Telepathic wolves have been the dominant sentient life-form on the distant planet of Drako for untold years, and each member of the pack carries within them the voices of their ancestors; many lifetimes of soul and memory on which they may draw. One day, a colonisation initiative from Earth brings a strange new creature to the peaceful world - humans. They walk on just two legs and their minds are oddly silent, leading the lupines to conclude that these new arrivals are unintelligent. Hundreds of years pass, during which time the human society on Drako descends into feudalism with a hierarchical class system and a deep-seated hatred of technology. The wolves observe, maintaining their distance, until after decades of isolation another space vessel unexpectedly makes planetfall. The crew of the medical ship Zebulon, on the run from the Machiavellian Institute, have been augmented by many spans of transferring their consciousness into new clone bodies, and each of them now possesses superhuman abilities. Will they make telepathic first contact with the wolves? And what of the menacing Institute agent that has secreted himself aboard the Zebulon and means to destroy its crew? The plot thickens deliciously as the ageing King Halder, consumed by anger over the murder of his family, surprises everyone by naming Donovan, captain of the Zebulon, as his successor. 'Howl Of The Wolf' is a richly imagined story which leads the reader on a journey through space and time, revealing a wonderful world that Diane lays out for us to play in. Characterization is clear-cut and highly communicative. The flow of the narrative is excellent... Highly recommended." Review by Xander Richards, Author

2018 INDIES Winner Gold, Juvenile Nonfiction (Children's) Gold Mom's Choice Award Winner 2019 National Parenting Product Awards Winner Creative Child Magazine Book of the Year Award Winner Honor Book for the 2018 Montana Book Awards Nautilus Book Awards Gold Winner What does it feel like to “ see ” with your ears like a bat or go through a full body transformation like a frog? Can you wriggle in and out of tight places like an octopus, camouflage yourself like a leopard, or do a waggle dance like a honeybee? This creative and beautifully illustrated interactive guide makes learning about animals fun for children ages 6 and up. Fifteen animals explain their amazing feats and invite kids to enter their world by mimicking their behavior — an imaginative approach to learning that fosters curiosity, empathy, and dramatic play.

In this adventure Tank the Great Dane's active imagination takes her and Haggis the Scotty on a airplane trip to Scotland, where they visit a castle, enjoy high tea--and get chased by a werewolf.

When big feelings come, do you ever feel like howling at the moon? Maggie does. Howl is an empowering story of a young girl's self-expression. Maggie has had a very bad day. First of all, the sun was the wrong shape, in a sky that was too blue. The spaghetti was too long, and her pyjamas were the wrong kind of pyjama. Then Maggie begins to have wolfish thoughts ...
