Exercise and mental health

### Learning Mental Fitness Training Learning

Mental Fitness is our first digital learning course designed to support schools to understand, learn and implement positive behaviour strategies to support the mental health and wellbeing of your employees and the children and young people they work with. The course aims to encourage individuals to treat mental fitness with the same level of care and appreciation as we do our physical fitness, with regular training exercises.

---

### Mental Fitness training | Team Teach - Team Teach

About the course The four modules - developed in partnership with 1st4sport and UK Coaching, and funded by Sport England and the National Lottery - will increase your knowledge and understanding of mental health, providing you with the practical skills and strategies to be able to: build people's resilience, self-esteem and confidence

Learning Mental Fitness Training Learning Techniques To ...

Mental capacity is the ability to make a specific decision at the time it needs to be made, with help if necessary. It has been estimated that over two million adults and young people may lack mental capacity at any time (due to dementia, acquired brain injuries, learning disabilities, acute delirium and other conditions).
