The teacher guide accompanies the student activities books in macro and microeconomics for teaching collegelevel economics in AP Economics courses. The publication contains course outlines, unit plans, teaching instructions, and answers to the student activities and sample tests.

Curriculum guide for economics education in grades 9-12 based on Economics America from the National Council on Economic Education.

Macroeconomics in Context lays out the principles of macroeconomics in a manner that is thorough, up to date, and relevant to students. Like its counterpart, Microeconomics in Context, the book is attuned to economic realities--and it has a bargain price. The in Context books offer affordability, engaging treatment of high-interest topics from sustainability to financial crisis and rising inequality, and clear, straightforward presentation of economic theory. Policy issues are presented in context--historical, institutional, social, political, and ethical--and always with reference to human well-being.

The study of international economic systems teaches about global production and competition, exchange rates, international finance, free trade vs. protectionism and economic development.

Principles of Microeconomics for AP(R) Courses covers scope and sequence requirements for an Advanced Placement(R) microeconomics course and is listed on the College Board's AP(R) example textbook list. The text includes many current examples, which are presented in a politically equitable way. The outcome is a balanced approach to the theory and application of economics concepts. The images in this textbook are grayscale.
