The life of the legendary pioneer of outback travel - the man who opened up Australia to adventure travel. A modern - day explorer who took everyday Australians along for the ride. Bill King is the pioneer who put the Australian outback on the map for both local and international tourists. Through an enterprise founded on hope and grit - now operating as AAT Kings - he opened up a completely new branch of Australian tourism. Thousands of Australians have experienced the adventure of a lifetime in Bill's capable hands, often walking in the footsteps of explorers such as Burke and Wills, Leichhardt, Sturt and Stuart. Eccentric drivers, mad passengers and sticky situations abound against the backdrop of the glorious Australian outback. Bill and his tour groups sometimes got lost, bogged or stranded - sometimes even scared out of their wits - but there was always a fierce determination to bring the show back home. Bill never lost a passenger or brought one to harm, though by heck they did sometimes try his monumental patience.

In this riveting new novel, the Australian Minister of Defence goes missing when her helicopter crashes in the Australian Outback. Meanwhile, the perpetrators of a terrorist attack on Surfers Paradise, Australia's beach playground, have survived their attack and are being illegally detained nearby at an outback base for interrogation. Foreign agents arrive in the area and attempt to free the terrorists. Will the minister become a hostage for their release? Security forces believe the answer might come from Saxony Knight, a citizen infiltrator of the Paradise attack, but she's disappeared from surveillance. An attack on the base sets off a manhunt across the outback, but who are they hunting and why? The only connection appears to be Saxony Knight. *Outback for Novices: A Saxony Knight Thriller* is the sequel to *Paradise for Beginners*. A review of the first book by Julie Thompson reads: "From the tongue-in-cheek title to the expertly constructed plot, there is nothing of a beginner about this book, a first for the author. It is a gripping ride, swim, climb, run, and dive through a complex story of Middle Eastern family revenge, espionage, surveillance, and flawed processes and people, played out on one of the world's most glamorous yet seedy playgrounds. The narrative is time lapsing, intricately detailed, and written in mostly dialogue, which demands careful and concentrated attention. It begins with the beautiful but damaged Saxony Knight, who boards a luxury cruiser on the Tweed River and is taken hostage by two young Middle Eastern brothers. Australian National Security have placed Saxony there to foil the plot, but can she? It's a frightening, plausible tale."

Designed as a workbook for frontline supervisors, this easy-to-use reference offers suggestions on how to solve the most frequently encountered problems in the call center. The *Customer Call Center Outback* outlines research with 70 call/contact center supervisors, where each of them were asked to identify the ten most frequent problems and then offer a list of actions that resulted in success and a list of actions that resulted in failure. The intention is not to be judgmental regarding these solutions, but to offer a wide variety of possible solutions as reference points to the supervisor facing the same issues right now. Readers may find that some solutions which were deemed failures in certain organizations were actually successful in others. Even the failing solutions inspire creativity by functioning as a catalysts for future improvements.

Recovering from injuries sustained during the loss of her last ship, bored hero Lieutenant Jodenny Scott takes a berth on the next ship out, the *Aral Sea*, a ship full of misfits, malcontents, and criminals, and journeys to the *Alcheringa*, an alien-controlled space warp, where she comes face to face with a powerful force that will turn her life upside down. A first novel. Reprint.

*Outback Survival* is a timeless, practical run down on everything you need to know to survive in the outback. Bob Cooper's incredible bushcraft skills have been developed through more than 25 years of experience in Australia's harsh outback. He has picked up tools of survival from the experiences of living with traditional Aboriginal communities, instructing with Special Forces Units, lecturing with the Texas Parks and Wildlife Service on desert survival in the Mexican Desert, delivering wilderness lessons in the UK and learning the skills of the bushmen of the Kalahari Desert in Botswana. Bob has put his own lessons to the test, dropping himself off in the 42C heat of the Australian desert with only a map and soap box sized survival kit, no food, water or sleeping gear, and a 10 day walk across 160km of rough terrain back to safety. He did this alone and showed that with the right knowledge of the land, you can survive in even the harshest of conditions. The outback of Australia is one of the most unforgiving regions of the world, but Bob is committed to protecting and enhancing the experience people have when venturing out into the bush.

From Afghanistan to Zimbabwe, *Youth With A Mission* is spreading the Good News of Jesus Christ in over 830 operating locations around the world. This guide lists hundreds of long- and short-term opportunities for all ages, as well as seminars and conferences around the world.

This is the first book to explore the relationship between tourism and spices. It examines the various layers of connection between spices and tourism in terms of destinations, attractions and cuisines. The book reveals how spice-producing destinations are employing spices in destination branding and encouraging spice farms to move towards tourism, while destinations not producing spices are employing spices and herbs in distinctive local cuisines.

Both tangible and intangible spice heritages are highlighted as tools for developing destinations, creating attractions, inventing new forms of livelihoods and distinguishing local, regional and national cuisines. This volume will be useful for researchers and students in cultural tourism, culinary tourism, anthropology of food and food history.
