STARING AT THE SUN. by Julian Barnes ¶ RELEASE DATE: April 2, 1987. Barnes (Flaubert's Parrot) has used portraiture-at-three-ages before, in 1980's Metroland. Staring at the Sun read rather as if Barnes had a couple of good ideas rattling around his head, but hadn't the time to explore or refine them before the publishing deadline was up. I wish I'd given up fairly early on, when it was clear that the main character was not someone I could engage with or care about.

Jean Serjeant, the heroine of Julian Barnes's wonderfully provocative novel, seems ordinary, but has an extraordinary disdain for wisdom. And as Barnes's winner of the Man Booker Prize for The Sense of an Ending follows her from her childhood in the 1920s to her flight into the sun in the year 2021, he confronts readers with the fruits of her relentless curiosity: pilgrimages to China and the Grand Canyon; a catalog of 1940s sexual euphemisms; and a glimpse of technology in the twenty-first century (when The Absolute Truth can be universally accessed). Jean Serjeant, the heroine of Julian Barnes's wonderfully provocative novel, seems ordinary, but has an extraordinary disdain for wisdom. A kind of detective story, relating a cranky amateur scholar's search for the truth about Gustave Flaubert, and the obsession of this detective whose life seems to oddly mirror those of Flaubert's characters.

The interplay between fiction and history forms the core of Byatt's essays as she explores historical storytelling and the translation of historical fact into fiction.

Julian Barnes's work has been marked by great variety, ranging not only from conventional fiction to postmodernist experimentation in such well-known novels as Flaubert's Parrot (1984) and A History of the World in 10 ¶2 Chapters (1989), but also from witty essays to deeply touching short stories. The responses of readers and critics have likewise varied, from enthusiasm to scepticism, as the substantial volume of critical analysis demonstrates. This Readers' Guide provides a comprehensive and accessible overview of the essential criticism on Barnes's work, drawing from a selection of reviews, interviews, essays and books. Through the presentation and assessment of key critical interpretations, Vanessa Guignery provides the most wide-ranging examination of his fiction and non-fiction so far, considering key issues such as his use of language, his treatment of history, obsession, love, and the relationship between fact and fiction. Covering all of the novels to date, from Metroland (1981) to Arthur and George (2005), this is an invaluable introduction to the work of one of Britain's most exciting and popular contemporary writers.

At the start of this fiendishly comic and suspenseful novel, a mild-mannered English academic chuckles as he watches his wife commit adultery. The action takes place before she met him. But lines between film and reality, past and present become terrifyingly blurred in this sad and funny tour de force from the author of Flaubert's Parrot.

Grotesque visionary Sir Jack Pitman has an idea. Since most people are too lazy to travel from landmark to landmark, why not simplify things and create a new England on the Isle of Wight? Unfortunately, his idea is a huge success, and the resulting theme park threatens to supersede the original. Called England, England, it has all the elements of "Old England" in one convenient location. Wander into the new Sherwood Forest and you may spot Robin Hood and his now sexually ambiguous Merrie Men. Or take a stroll to see Stonehenge and Anne Hathaway's Cottage, enjoy a ploughman's lunch atop the White Cliffs of Dover, then pop over to see the Royals, now on contract to Sir Jack, in their scaled-down version of Buckingham Palace. Every detail has been considered: even the postcards come pre-stamped! Julian Barnes' first novel in six years is a ferociously funny examination of the search for authenticity and truth in a fabricated world.

Exploring the archives of the Man Booker prize-winning novelist Julian Barnes ¶ including notebooks, drafts, typescripts and publishing correspondence ¶ this book is an extraordinary in-depth study of the creative practice of a major contemporary novelist. In Julian Barnes from the Margins, Vanessa Guignery charts the genesis and publication history of all of Barnes's major novels, from his debut with Metroland, through Flaubert's Parrot and A History of the World in 10 ¶2 Chapters to The Sense of an Ending.
