The Caffeine Cure A Definitive Guide To Finally Overcoming ...

Caffeine is a popular stimulant present in coffee, certain teas, chocolate, energy drinks, colas, and some medications. However, some people may experience caffeine sensitivity.

Caffeine sensitivity: Symptoms, causes, and management

Caffeine interferes with this by blocking the cells' ability to recognise adenosine, reducing the extent of inflammation. Blocking receptors This idea has also been backed up by observations of other drugs which block these receptors in a similar way to caffeine, but more specifically and more strongly.

Caffeine and dementia | Alzheimer's Society

"Whilst the results from predominantly lab-based studies are encouraging, larger randomised, controlled clinical trials on actual patients are required to draw more definitive conclusions." The caffeine molecule penetrates easily into the hair follicles but it remains questionable as to whether a sufficient concentration of caffeine can be delivered via a shampoo to maximise its potential benefits.
