Anyone who listens to or plays classical music often wants to put the pieces they encounter in context - to check information ranging from who wrote the piece, or the date of its first performance, to how it acquired its title, or whether it was commissioned for a specific person or occasion. General dictionaries of music only cover a limited number of musical works, and include very little detail. The new Oxford Dictionary of Musical Works provides short articles on over 1750 musical works from earliest times to the present day, providing a comprehensive but handy reference. Entries encompass a broad spectrum of genres - from opera, ballet, choral and vocal music, orchestral, chamber and instrumental pieces, to nicknamed works, collections, national anthems, hymn tunes, and traditional melodies. Each entry outlines the genre to which the piece belongs; the librettist or author of the text, including any literary source; the number of acts or movements; the scoring - including details of the instrumentalists and vocalists needed to perform the piece; how it came to be commissioned; the place and date of its first performance; any subsequent arrangements or revisions; and any additional important or entertaining information.

A listener's guide to jazz brings together sixty essays on the history, performers, characteristics, and influence of jazz music.

An icon of British national identity and one of the most widely performed twentieth-century composers, Ralph Vaughan Williams has been as much misunderstood as revered; his international impact and enduring influence on areas as diverse as church music, film scores and popular music has been insufficiently appreciated. This volume brings together a team of leading scholars, examining all areas of the composer's output from new perspectives, and re-evaluating the cultural politics of his lifelong advocacy for the music-making of ordinary people. Surveys of major genres are complemented by chapters exploring such topics as the composer's relationship with the BBC and his studies with Ravel; uniquely, the book also includes specially commissioned interviews with major living composers Peter Maxwell Davies, Piers Hellawell, Nicola Lefanu and Anthony Payne. The Companion is a vital resource for all those interested in this pivotal figure of modern music.
