This companion volume to The Atlas of Breeding Birds of Britain and Ireland is derived from surveys of birds present in

Britain and Ireland during the three winters, 1981/82, 1982/83 and 1983/84. The surveys were organised by the British Trust for Ornithology and the Irish Wildbird Conservancy, as were the earlier breeding birds surveys. The Winter Atlas maps 200 species, 192 of which have full-page two-colour maps faced by a page of text. The texts (written by over 100 specialists) comment on the survey results, the species generally and the distribution and abundance as mapped. In addition there are introductory chapters on the maps, the weather in the three winters, bird patterns and movements; and appendices describing the planning, organisation, field methods, and processing of the survey data from record cards to computer output and maps. A team of 23 artists, led by Robert Gillmor, has provided the line drawings which head the species accounts. This is a print-on-demand edition of the Atlas. It is a black and white reproduction of the original two-colour book.

Likened to a 48 Laws of Power for young Black men, this book presents Black biographies, history, and current events in a language that the Hip-Hop generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several How To sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban Encyclopedia Africana. Others have called it a Blueprint for Black Power for a generation struggling with materialism and short attention spans. This book is guaranteed to change the

world by changing the way millions of people think and live. In *How to Hustle and Win*, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley "Tookie" Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling *48 Laws of Power* used iconic figures from classical history to illustrate the guidelines for personal success, *How to Hustle and Win* is filled with the exploits of rappers, gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: "Unfortunately, few authors actively target this audience, and those who do are either not speaking their language, or not interested in pushing for change. This is why *How to Hustle and Win* was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world." Revolutionary aspirations aside, *How to Hustle and Win*'s groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success,

including obtaining a doctorate in education at the age of 26.

"Who are you? Are you the police? This isn't legal, you know. You can't hold me like this." In a near-future dystopian Britain, democracy has been undermined. Emboldened by new anti-terrorism laws, police start to "disappear" people from the streets for unspecified crimes. But when unassuming dentist Arthur Priestley is snatched and held prisoner at a top-secret facility, his estranged wife, Julia, and a brave but naive journalist named Tom Clarke embark on a harrowing quest for the truth. Following a trail that leads to the very top of government, they soon find themselves fighting for their lives. Well-crafted, fast-paced, and totally compelling, *The Facility* is a brilliant thriller that resonates eerily with the timbre of our times.

Interviews with the Disney artist who created Scrooge McDuck and many well-loved comic books
Disney artist Carl Barks (1901-2000) created one of Walt Disney's most famous characters, Scrooge McDuck. Barks also produced more than 500 comic book stories. His work is ranked among the most widely circulated, best-loved, and most influential of all comic book art. Although the images he created are known virtually everywhere, Barks was an isolated storyteller, living in the desert of California and preferring to labor without public fanfare during most of his career. He created work of such exceptional quality that he was accorded the greatest autonomy of any Disney artist. He is the only comic book artist ever to receive a Disney Legends award. The influence of Barks's work on such filmmakers as George Lucas and Steven Spielberg and on such artists as Gottfried Helnwein has extended Barks's significance far beyond the boundaries of comics. After Barks's death at the age of ninety-nine, Roy Disney praised him for his "brilliant artistic vision." Carl Barks:

Conversations is the only comprehensive collection of Barks's interviews. It ranges chronologically from the very first one (with Malcolm Willits, the fan who uncovered Barks's identity) to the artist's final conversations with Donald Ault in the summer of 2000. In between are interviews conducted by J. Michael Barrier, Edward Summer, Bruce Hamilton, and others. Several of these interviews are published here for the first time. Ault's friendship with Barks, ranging over a period of thirty years, provides an unusually intimate resource not only for standard q&a interviews but also for casual conversations in informal settings. *Carl Barks: Conversations* reveals previously unknown information about the life, times, and opinions of one of the master storytellers of the twentieth century. Donald Ault, a professor of English at the University of Florida, is the author of *Narrative Unbound: Re-Visioning William Blake's The Four Zoas* and *Visionary Physics: Blake's Response to Newton*. His work has been published in *Studies in Romanticism*, *The Wordsworth Circle*, *Modern Philology*, and *The Comics Journal*.

The book contains the proceedings of the 14th International Symposium on Capture Gamma-Ray Spectroscopy and Related Topics held at the University of Guelph from August 28 through September 2, 2011. The proceedings cover topics of nuclear structure, nuclear reactions, nuclear astrophysics, fundamental symmetries in nuclei, statistical aspects of nuclei, and new techniques and applications, from forefront researchers in their fields.

The author, a Muslim United States Army chaplain, describes how he was wrongly accused of treason and imprisoned at the Guantânamo Bay Naval Base, and his fight to be cleared of the charges.

THE RATS AND THE RULING SEA begins where THE RED WOLF CONSPIRACY ended; Thasha's wedding is hours away. It is a wedding that will both fulfil the promise of a mad god's return and see her murdered. Pazel has thwarted the sorcerer who would bring back the god but both sides now face deadlock. Can Thasha be saved? Can the war between two Empires be stopped? THE RATS AND THE RULING SEA is, once again, focused on the giant ancient ship, the CHATHRAND, but now she must brave the terrors of the uncharted seas; the massive storms and the ship swallowing whirlpools and explore lands forgotten by the Northern world, all the time involved in a vicious running battle with a ship half her size but nearly her match. Robert Redick's new novel takes the reader further into the labyrinthine plots and betrayals that have underscored the trilogy from the beginning. Robert Redick's sequel to the acclaimed THE RED WOLF CONSPIRACY is a masterpiece of plotting and adventure. As each page turns the reader shares with the characters the dawning realisation that nothing is at it seems.

This book offers the analysis of the relationship between the Cape Town Convention and national laws on secured transactions. The first part of the book considers why national implementation is so important in the case of the Cape Town Convention and identifies how innovative the Convention is as a uniform law instrument. The second part includes chapters on those states that are Parties to the Cape Town Convention, which analyse how the Convention is implemented under the domestic law. The third part includes chapters on those states that are not Parties to the Convention, which compare their national laws and the

Convention to find unique features of the Cape Town Convention's rules. The fourth part discusses the meaning of Protocols on aircraft, railway rolling stock and space assets from the practitioner's point of view. As a whole, the book offers insights into the new stage of uniform private law and shows the need for further examination of the subject, which will be essential for international and national legislators, academics of comparative and international private law as well as practitioners who are the users of the uniform law regime.
