the field of evolutionary psychology to offer revealing glimpses of human nature and to shed new light on why humans do the things that they do.

Demonstrates how society favors the beautiful and how better-looking people experience startling but undeniable benefits in various aspects of life. This title shows that the attractive are more likely to be employed, work more productively and profitably, negotiate loans with better terms, and have more handsome and highly educated spouses.

Most humans don't realize that when they exchange emails with someone, anyone, they are actually exhibiting certain unspoken rules about dominance and hierarchy. The same rules regulate the exchange of grooming behavior in rhesus macaques or chimpanzees. Interestingly, some of the major aspects of human nature have profound commonalities with our ape ancestors: the violence of war, the intensity of love, the need to live together. While we often assume that our behavior in everyday situations reflects our unique personalities, the choices we freely make, or the influences of our environment, we rarely consider that others behave in these situations in almost the exact the same way as we do. In *Games Primates Play*, primatologist Dario Maestripieri examines the curious unspoken customs that govern our behavior. These patterns and customs appear to be motivated by free will, yet they are so similar from person to person, and across species, that they reveal much more than our selected choices. *Games Primates Play* uncovers our evolutionary legacy: the subtle codes that govern our behavior are the result of millions of years of evolution, predating the emergence of modern humans. To understand the rules that govern primate games and our social interactions, Maestripieri arms readers with knowledge of the scientific principles that ethologists, psychologists, economists, and other behavioral scientists have discovered in their quest to unravel the complexities of behavior. As he realizes, everything from how we write emails to how we make love is determined by the legacy of our primate roots and the conditions that existed so long ago. An idiosyncratic and witty approach to our deep and complex origins, *Games Primates Play* reveals the ways in which our primate nature drives so much of our lives.

"When she's good, she's very, very good, and Beautiful People finds Holden on steroids. NEW YORK TIMES BESTSELLER “I come from a family forged by tragedies and bound by a remarkable, unbreakable love,” Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

In this smart, playful, and provocative book, one of today's most original business thinkers argues that we underestimate the importance of romance in our lives and that we can find it in and through business—by designing products, services, and experiences that connect us with something greater than ourselves. Against the backdrop of eroding trust in capitalism, pervasive technology, big data, and the desire to quantify all of our behaviors, *The Business Romantic* makes a compelling case that we must meld the pursuit of success and achievement with romance if we want to create an economy that serves our entire selves. A rising star in data analytics who is in love with the intrinsic beauty of spreadsheets; the mastermind behind a brand built on absence; an Argentinian couple who revolutionize shoelaces; the founder of a foodie-oriented start-up that creates intimate conversation spaces; a performance artist who offers fake corporate seminars for real professionals—these are some of the innovators readers will meet in this witty, deeply personal, and rousing ramble through the world of Business Romanticism. *The Business Romantic* not only provides surprising insights into the emotional and social aspects of business but also presents “Rules of Enchantment” that will help both individuals and organizations construct more meaningful experiences for themselves and others. *The Business Romantic* offers a radically different view of the good life and outlines how to better meet one's own desires as well as those of customers, employees, and society. It encourages readers to expect more from companies, to give more of themselves, and to fall back in love with their work and their lives.

Investigative journalist Michael Gross delves into the history of models and takes us into the private studios and hidden villas where models play and are preyed upon, going beyond modeling's carefully constructed facade of glamour to expose the scandal and untold truths that permeate the seemingly glamorous business. Here for the first time is the complete story of the international model business—and its evil twin: legalized flesh peddling. It's a tale of vast sums of money, rape both symbolic and of the flesh, sex and drugs, obsession and tragic death. At its heart is the most unholy combination in commerce: beautiful, young women and rich, lascivious men. Fashion insider Michael Gross has interviewed modeling's pioneers, survivors, and hangers-on, and he tells the story of the greats: Lisa Fonssagrives; Anita Colby,
